Quest for Love

1968

W. H. Auden's poetry: The Quest for Love is a study of the major twentieth-century British and American poet W. H. Auden's mutating quest for love in the shifting and interactive Freudian, Marxist, and Christian/Kierkegaardian contexts. It focuses on the poems of the most fertile period, 1927-47, of Auden's poetic career. Certain identifiable images are symbolic of the quest for love in each phase, offering an analysis of man in Freudian and Marxist terms. The ameliorative quest for love fulfills itself in the vision of divine love in the final Christian/Kierkegaardian phase. This ideal and comprehensive book will attract the lovers of Auden and will benefit the scholars, students, teachers, and researchers of the 20th-century poetry.

Quest for Love

1981

I have deep feelings for this guy, but he says I'm like a sister to him. What should I do? Why should a man still be expected to initiate romance isn't it okay to spend time together if we're just friends? If I never marry, will God take that desire away? These are some of the many questions posed in letters to Elisabeth Elliot by readers of her bestselling book *Passion and Purity*. In this beautifully repackaged edition of *Quest for Love*, she responds with sound biblical guidance, dusting off antiquated concepts such as commitment, integrity, honor, and servanthood, and showing how they still apply to dating and singleness. Today intertwined are hopeful, true stories of discovering love through God's direction.

Following the 2011 wave of revolutions and protests in North Africa and the Middle East, new discussions of individual freedoms emerged in the Moroccan public sphere, and human rights discourse. A segment of the public rallied around the removal of an article in the penal code that punished sexual relationships outside of marriage, as debates about personal and sexual freedom gained momentum. Love and intimacy remain complex issues moving between public, clandestine, and online interactions. *Quest for Love in Central Morocco* explores the creative ways young women navigate desire and morality. Menin's ethnography focuses on young women living in the low-income and lower-middle-class neighborhoods of a midsized town in central Morocco, far from the overt influence of city life. At the heart of the book, Menin draws upon ideas of love as an ethnographic object and source of theoretical examination. She demonstrates that love as a complex cultural and historical phenomenon, shaped through intersecting socioeconomic and political developments, is crucial in thinking through generational changes and debates in Morocco and the Middle East. More broadly, what is at stake in the quest for love, she argues, is not only the making of gendered selves and intimate relationships but also the imagination of social and political life.

Charles Wesley and early Methodist women shaped Wesleyan theology and practice just as much as John Wesley. All these pioneers in the renewal of the church engaged together in a quest for love, divine. That journey led them to timeless discoveries related to God's grace, the liberating nature of life in Christ, the joy of Christian discipleship, and the sense of purpose to be found in partnering with God in the celebration of beloved community. The early Methodist people learned their theology by singing it, faith working by love, leading to holiness of heart and life, accountable discipleship, the rediscovery of a missional church. Discover the meaning of sound bites like these as you explore these themes and more.
