the title of this book is a misnomer it is not an attempt to get anyone to shut up but rather to provoke a discussion this book is intended to be a warning about the philosophy of christian postmodernism the reader will learn some basic principles that can be used to engage their arguments part 1 is a response to some of the recent writings by frank schaeffer the son of the late francis schaeffer this was originally written as a defense against frank s attacks on pro life street activism a movement that his father helped bring into being through his books part 2 is a response to colonel doner and his book christian jihad neo fundamentalists and the polarization of america there are thousands who have had their lives impacted in a powerful way by the elder francis schaeffer as a new generation is emerging it is important to recognize the mistakes that christian activists have made in the past even while holding to a vision for the future
